Alton Adopts Innovation for Training Employes - Warren J. Lynch Becomes G. P. A. of Four Distinct Lines.

St. Paul, Jan. 29.-Governor Van Sant to dan replied to the petition from Minneapolls business men, who asked him to cease his fight on the so-called railroad merger. The letter is addressed to Janney, Semple, Hill & Co., and the Governor says:

"I beg to acknowledge receipt of a petition from you and numerous other gentlemen doing business in the city of Minneapolis, proposing 'that no immediate action be taken against the Northern Securities Company,' and 'that a fair opportunity for testing by experience whether good or evil will come from that company." "The consolidation of the Northern Pa-cific and the Great Northern Railway com-

panies through the organization of the Northern Securities Company is clearly a violation of the State statutes. "I obligated myself when I was inaugurated Governor of the State to enforce the laws thereof.

"It is my bounden duty to prevent, if possible, the consolidation referred to, be-cause such consolidation is in violation of the clear and unmistakable provisions of the law on the statute books for over a quarter of a century. Not only is the letter of the law, but also a settled policy of this State, against the consolidation of parallel and competing railroad lines. Competition in the matter of rates always has been and ever will be beneficial to the people, and no pecious argument or statement from those desiring to do away with such competition is sufficient to meet plain facts derived from ommon experience.
"However, the question of whether the

haw is wise or unwise does not confront me.
"The law exists and has been violated; my duty is plain.
"I, therefore, must respectfully decline to

comply with the requests contained in your n, and shall continue as vigorously salble to vindicate the laws of our

st. Lawrence River at montreal, which is to be one of the largest of its class in the world.

The bridge to be constructed is the Royal Albert Bridge from Montreal to Longueil, and the Montreal Bridge Company has entered into a contract with the Atlas Construction Company to erect it. The construction company is to begin work on the bridge as soon as aid already pledged by the Province of Quebec and the city of Montreal becomes available. The estimated cost of the bridge with its terminals is \$10,000,000. The total length of the bridge is to be \$8,000 feet. The main span, the cantilever, which will be the largest of its kind on the continent, will be 1,250 feet long. The height of the bridge above water will be 150 feet and its width \$3 feet, providing for a double-track steam railway, a double-track electric railway, a double highway and two sidewalks. The weight of steel in the structure will be 20,000 cubic yards of masonry. Thirteen different lines of railway will have access to the bridge.

In Four Months

WARNER'S SAFE CURE.

Alderman Stubig Gratefully Tells How This Wonderful Medicine Cured Him of Bright's Disease.

"144 Roscoe Boulevard, Chicago, Oct. 19, 1900.—Gentlemen: About two years ago I had one foot in the grave, as the saying goes, and life looked pretty black to me; the doctors called it Bright's disease. I would give all I had to be cured, but nothing seemed to do me much good until a neighbor recommended that I try Warner's Safe Cure. It was with but little hope that I tried it, but within two weeks my general health was improved, and in four months I was completely cured. I hardly dared to believe that such good fortune was mine, but I have not lost a meal nor had an ache or pain since. Words seem but poor to express my gratitude. Yours truly. H. M. KATY AND FRISCO MOVES.

Southwestern Roads Playing a Game in the Territory. Vinita, I. T., Jan. 29.—After the proposition that the Katy was going to build from Wybark to the intersection of the proposed route from Stevens or Coffeyville to posed route from Stevens or Coffeyville to
Guthrle and Oklahoma City was published
some time ago, it was stated that the Katy
contemplated building from Wybark
through to Wealaka and on to a connection
with the main line. The direction may
have been changed, and, instead of going
west, the road will be built to Stevens.
In this connection it may be pertinent to
state that there is a well-defined rumor
that the Frisco surveyors are between Wybark and Choska, north of the river, and
that they have been changed the past few
days, which may account for the Katy people attempting to head them off as soon
as possible.

ADMIT RATE CUTTING.

Kansas City Investigation Continued

at Washington. Washington, Jan. 29.—Some important admissions of rate-cutting were made at a nearing given by the Interstate Commerce Commission to-day in continuance of the investigation begun at Kansas City on Jan-

westigation begun at Kansas City on January 9.

Vice Presidents Paul Morton of the Atchison and J. M. Johnson of the Rock Island, and J. M. Monroe, traffic manager of the Union Pacific, testified. All the witnessen admitted that the published tariff rates on grain moving in and out of Kansas City, Mo., had not been observed.

They explained the methods by which the lower rates actually were accorded and contended that these concessions were necessary. They conceded that there were favored shippers on most of the transcontinental lines, but claimed the practice was the natural result of the competitive conditions of transcontinental traffic. The most serious cutting of rates, they said, ditions of transcontinental traffic. The most serious cutting of rates, they said, prevails between Kansas Cay and Chicago. The witnesses admitted that at a time when the published rate from Kansas Cliy to Chicago was 12 cents per hundred pounds there was practically no srain moved at a rate above 7 cents, and more or less of this traffic was carried at the rate of 6 cents.

the standard code of railway signals for its
entire system. The change will be gradual.
The first circular relative to the matter
issued provides that after February 2 green
signals will be abolished insofar as their
present use indicates a special train, and
white signals will be substituted. The code
being put in is the American Railway Association code, one of the objects of which
is to eliminate the use of the color red

EAST SIDE NEWS.

SENTENCE IN JAIL.

Judge Administers Severe Lecture to Charles R. Palmer, Who Was Convicted of Rioting.

Charles R. Palmer of East St. Louis, walking delegate of the Carpenter's Union in that city, was yesterday sentenced to serve sixty days in the county jail on a charge of rioting. Palmer was convicted of the charge by a jury in the Circuit Court last Saturday and Judge M. W. Schaefer pronounced the sentence to-day, refusing to grant the motion for a new trial.

In delivering the sentence, Judge Schaefer took occasion to give Palmer a lecture. Judge Schaefer told Palmer that the residents of St. Clair County believed in trades unions and thought that they were an excellent thing for the workingmen. However, those who differed with unions were entitled to just the same protection of the law that the union men were and the fact that a man was a nonunion man did not give Palmer or any one else the right to assault that man.

Judge Schaefer told Paimer that no matter what the object that was to be attained, violence would not be tolerated. The Judge had no objection to the walking delegates of the unions using moral suasion to in-duce nonunion men to foin their ranks, but he streneously objected to a breach of the laws which give every citizen, no matter what his occupation or station in life, equal protection.

equal protection.

William Hartman and Henry Hirth, who were convicted with Palmer, were fined \$25 and costs each. Judge Schaefer said that Palmer was the leader, and that his punishment was the heavier on that account. RECOUNT GIVES TOJO MAJORITY

cuit Judge Burroughs all of yesterday, and promises to consume the greater portion of to-day.

A recount of the ballots made yesterday morning shows Tojo to have received a majority of thirty-eight votes over Drummond, who now holds the office. The day following the election the judges of the election declared that Drummond had been elected by sixteen votes. Tojo immediately contested the case and it has been in the Circuit Court ever since.

There was much sensational testimony, in which charges of fraud were made many times. Tojo and his friends made the assertion that the ballots were not counted right by the judges of election, who, they claimed, favored Drummond.

Drummond, on the other hand, declares that the first count of the ballots was the recovered one and that if the figures at the recount yesterday show a different result that the ballots were tampered with after they left the hands of the judges. Drummond and his friends will attempt to prove this assertion to-day.

MANY SMOKE-ABATING DEVICES.

Chief Inspector Jones Says 310 Are Operating Satisfactorily. Chief Smoke Inspector Charles H. Jones reports that 380 smoke-abating devices are now in use, all but seventy of which are

now in use, all but seventy of which are operating satisfactorily. The devices in use consist of down-drafts, steam jets, air blasts, brick arches and stokers.

The deputy inspectors are preparing statements of the number of boher plants in the city. With these facts it will be easier to learn of the efforts to abate the smoke nuisance. So far 552 plants are on the lists.

Mr. Jones says the best results cannot be brought about in a short while. The progress must be gradual, he says, and the department cannot remove the evil without the good will and assistance of the public. The inspectors are working diligently and corporations show a disposition to comply with the law.

Alex. Sanders; both legs broken; hurt internally; will die.

Alex. Sanders; both legs broken; hurt internally; will die.

A car without passengers got beyond control of the motorman and dashed down the hill, one and a quarter mile long, at a terrific rate of speed. At the bottom it jumped into the Pennsylvania Raliroad Station, carrying away the side of the depot and tearing up the platform. A large crowd gathered about the wreck, and twelve finutes later a second runaway car came tearing down the hill and plowed into the crowd.

WILL BUILD 1,000 HOUSES IN MISSOURI

Entry of Federal Lead Company May Bring 20,000 Persons to the State.

Nearly 1,000 residences will be erected in the Flat River district of Missouri by the Federal Lead Company, which has already acquired 15,000 acres of mineral land and invested several million dollars in that section. The houses are to be occupied by employes.

President David Guggenhelm of the Guggenheim Exploration Company, which owns the Federal Lead Company, said last night at the Planters Hotel that besides these houses, which are to be built by the company, many of the employes will build houses of their own. The company has built already the town of Leadington. Several other towns are projected. In all, it is expected that the exploitation of this section will bring there 20,000 persons, some from the Joplin district, but more from other parts of the United States.

The Guggenheim interests represent all together about \$60,000,600, being allied with the Whitney-Ryan syndicate, Kuhn, Loeb & Co., and the American Smelting and Re-fining Company. How much will be spent by this combination in Missouri, or how much more land will be acquired, Mr. Guggenheim declined last night to state. Already the greatest smelting plant in the Mississippi Valley is being constructed at Alton. Refining plants have been built at Irondale and Leadington. An office has been established in the Union Trust building, that St. Louis may be made the tributing point for this section of the

country.

Mr. Guggenheim said last night that there was no intention of monopolizing the lead output of Missouri, as there was sufficient field here for all those interested.

field here for all those interested.

With President David Guggenheim on his Western tour of inspection came his brother, S. R. Guggenheim, managing director of the Guggenheim Exploration Company, William C. Whitney, who is a director in that company, and in the American Smelting and Refining Company, and Harry Macdonna, who is also interested in the great lead combination.

The Guggenheims will proceed from St. Louis to Colorado and Utah,, inspecting large properties in both these places. Whitney and Macdonna have gone to Lexington, Ky., to look over Mr. Whitney's stable, before returning to New York.

RELATIVE OF THE POPE DIES. Sister Bentivoglio of Omaha Strick

en by Pneumonia. Omaha, Neb., Jan. 29.-Sister Mary Con stance Bentivoglio, mother superior of the Omaha Convent of St. Claire and relative of Pope Leo, died early to-day at the mon-astry of pneumonia, after two weeks' ill-Sixty-four years ago the sister was born

Sixty-four years ago the sister was born in the castle of St. Angelo at Rome, while her father was Governor of the Italian capital. She was a descendant of the famous house of Bentivoglio, and one of her brothers, Count Bentioglio, is prominent among the Italian noblemen of to-day.

Her father was a native of Bologna, Italy, and her relatives are still in Europe, with the exception of Sister Magdalene, who is mother superior of the monastry at St. Claire at Evansville, a branch of the Omaha monastry.

A quarter of a century ago, Sisters Magdalene and Constance decided to establish a home for their order in some port of the United States, ohn A. Creighton offered them a site and money for their home in this city, which was the first branch established in this country.

No arrangements have been made for the burial of Mother Constance, but it is likely that her remains will be sent to Evansville for burial at the home of her sister. There will be no public funeral ceremonies.
